What is Brick Club?

Brick Club is a club where you can have fun building LEGO® models with other people. Building together helps with team-work and is good fun.

What do you do in Brick Club?

Build with LEGO®

In Brick Club, you always build LEGO® models in a small team. There are lots of different LEGO® building activities. Normally, you start with building LEGO® sets following instructions. You build the set with one or two other people.

Work as a team

If 3 people build together, you will each have a different job. These can be called the **Engineer**, **Supplier** and **Builder**. You take it in turns to do each of these jobs and swap jobs every few steps.

Have fun together

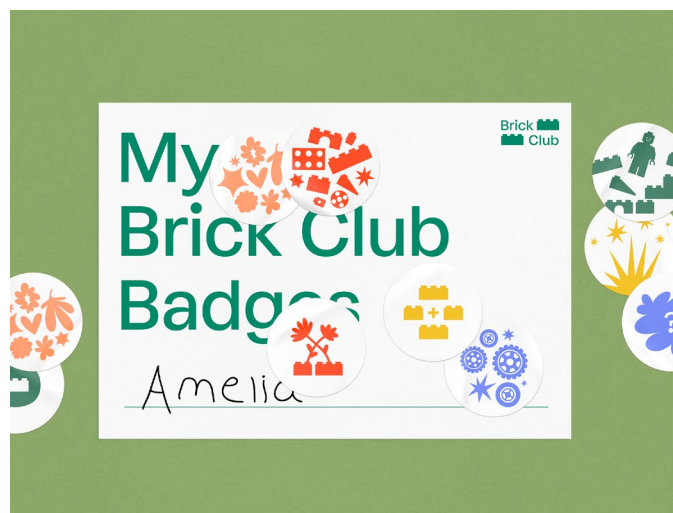

You can also build with others to create new LEGO® designs.

It's important to play with what you have made and have fun together!

What does the adult do in Brick Club?

Each Brick Club has one or two adults helping. Their job is to support the group to make decisions about what to build, who to build with and how to solve challenges. The adult helps make the group fun and playful.

Brick Club stickers

In Brick Club, you can give each other stickers and collect them on a Collector's Sheet if you want to.

Brick Club Rules

In Brick Club there are rules to help the group work well together. You can decide on your own rules in the first session of Brick Club. Some examples of rules are:

Build together.

Be kind.

Have fun.

Brick Club Certificates

In Brick Club, you can work your way up different levels of building skill: **Helper, Builder, Creator, Master, Genius.** When you reach a new level, you can get a certificate.

About my Brick Club
